The richest mining country the world has ever known is being opened up in old Mexico, to the south of Deming.

The Headlight believes that there will be a decided revival in the mining industry in this section before the first of the year.

The Headlight was the first paper in Grant county to give space to the news of the settlement of the famous Whitehill lead case. When you wait of the news get the HEADLIGHT.

The completion of the next Territorial legislature still appears to be in doubt. A number of congressmen will undoubtedly be instituted and the true condition of affairs cannot be definitely known until after the assembly is organized next January.

A recent dispatch from Washington says: There is but little probability that the senate during the coming court session will take favorable action upon the bill admitting Arizona and New Mexico to statehood. It would closely resemble political suicide. Both territories were strongly republican at the recent elections, thus virtually insuring the selection of four senators of that faith. Democratic politicians here have already considered this matter, and reached the conclusion that by all means these bills to die they could not again be enacted by the Fifty-fourth congress in time to organize state governments and return senators before the general elections of 1905. This would give the democratic another chance to save themselves by hard work, or be defeated by a slump this way.

THE COMING ISSUE.

The next great issue before the country will be something other than the tariff. The campaign of tariff education is over for this time at least, and the wisdom of the United States may address itself to a calm, deliberate and exhaustive study of the silver question. The republican party is already getting itself into line upon this question. It dare not assume to itself a logical position, that of absolute hostility to remonetization, but it will hang on to the flimsy and illogical consent of European nations idea. They know now, as well as they have known at any time during the past five years, that Europe will not consent—so that is equivalent to saying that they are not in favor of the measure as a distinctively independent American proposition. This attitude is equivalent to declaring that they will not consider remonetization at all. The democratic party is committed to independent action, if it is committed to anything at all on the subject of silver. We are not a bit afraid of the people of the United States on this independent action matter, if they approach clearly the issues contained in it, as well as this whole silver question. A national campaign on the issue alone will sooner educate the masses on the question than anything else. The masses now voting in the east for the party of demonetization, will, upon receiving such light, promptly reverse action and they will become the most ardent free coinage people in the country. Terrible Misery
Helpless With Rheumatism and Without Appetite.

Tired Feeling and Pains Dispelled by Hood's Sarsaparilla.

"I was in terrible misery with rheumatism in my hips and lower limbs. I read so much about Hood's Sarsaparilla that I thought I would try it and see if it would relieve me. When I commenced I could not sit up nor even turn over in bed without help. One bottle of Hood's Sarsaparilla

so much that I was soon out of bed and could walk. I had also felt weak and tired all the time, could not sleep, and obtained so little rest at night that I felt all over as if I were burning. I had no appetite to eat anything, but Hood's

Hood's Sarsaparilla Cures
Sarsaparilla renewed my appetite so that I could eat without any distress, and I have gained greatly in strength. I have taken two bottles of Hood's Sarsaparilla and I can now walk and feel as well as I ever did."

Hood's Pills cure liver bile, constipation, indigestion, jaundice, skin diseases, indigestion.

A MARTYR TO INDIGESTION
Cured by Using
Ayer's Sarsaparilla

Wards of Comfort in All who Suffer from Dyspepsia.

"For years, I was a martyr to indigestion, and had about given up all hope of ever finding relief, as the complaint only seemed to grow worse instead of better, under ordinary treatment. At last, I was induced to try Ayer's Sarsaparilla, and I hereby testify that after using only three bottles, I was cured. I can, therefore, confidently recommend this medicine to all similarly afflicted."

"I am personally acquainted with Mr. Heck and believe any statement he may make to be true." - W. J. MAXWELL, Druggist and Pharmacist, Ayer, Ia.

taught by their bankers and their subservient tools, the newspapers, that there is nothing wrong with silver, that this whole excitement is nothing more or less than the effort of the "silver king" to secure greater profits out of the metal. They tell them, "silver is not demonetized, that it is still money and there is nothing the matter." Put these people in possession of the real facts in the case and we can carry the whole country with a final result as great, as widespread and as sweeping as was the recent result. Let us all prepare for the great struggle of the next two years.

LAND
In parcels of One to Twenty Acres, surrounding the Town of Deming, conveniently located to the depot and postoffice, with

Permanent Water Rights At Reasonable Figures.
They have an inexhaustible supply of water, and will be able to furnish sufficient irrigation for all the land they sell. Those anticipating settling in Deming would do well to apply soon and secure lands and lots near the reservoir and pipelines. The Company will sell the
Lands on Easy Payments.
TERMS: Twenty-five per cent. on the first payment, the other payments to be divided to suit the purchaser at the low rate of 6 per cent. per annum.

A miner's inch of water is equal to 9 gallons per minute. 15,000 gallons of water will cover one acre of ground one-half inch deep; 250 gallons of water per minute will cover one acre of land one-half inch deep in one hour. 2,500 gallons of water per minute will cover ten acres one-half inch deep in one hour, or 240 acres in 24 hours, or 2400 acres every ten days. This, when everything is flooded once in ten days; but in fruit orchards and vineyards, where the rows are wide apart and the watering confined to the rows, less than half the water is required. Alfalfa requires only one flooding after each cutting, and is usually cut about once a month for the season of six months. Canals require water only twice a year.
Estimated Value of Crops Produced in this Section Under Irrigation, when Properly Cultivated:
Corn, oats and barley..... \$ 50 to \$ 75 per acre
Alfalfa and Canals..... 50 to 75 "
Sweet potatoes..... 350 to 350 "
Assorted vegetables..... 200 to 350 "
Apples, peaches and pears..... 200 to 500 "
Small fruits..... 200 to 500 "
Grapes..... 200 to 500 "
Water rental \$10 to \$20 per acre per annum.
Price of lands, with water rights, \$100 to \$300 per acre, according to distance from town.
